Circular and Prospectus.

This Institution was started while Kansas was but a Territory, under a charter giving it the rights of a College, granted by the last Territorial Legislature; its life is thus cotemporaneous with that of the State. In 1870 the old special charter was abandoned, and a new College Charter adopted under the General Statute. The original name was "The Episcopal Female Seminary of Topeka." In 1872 the name was changed to the "College of the Sisters of Bethany." This name does not refer to any *Order of Sisters* (for there is none such in it) but to a Scriptural model and example thus ever presented to the minds of the pupils. The Bishop of the diocese, in his address to the Convention of 1873, has clearly expressed the purpose and meaning of the name.

"This name was selected for the purpose of indicating the design of the Institution as a Christian school for women. We desire, by this name, to show that we aim to make this Institution like that sweet Home of Bethany, which Jesus visited and so hallowed by His frequent presence, and of which it is written: "Now Jesus loved Martha and her sister, and Lazarus"—that Home where the younger, Mary, sat at Jesus' feet, while the elder, Martha, not forgetful of His Divine teachings, but ocupied with her household cares, ministered to His temporal comfort—that Home which contained the representative women of the two great classes of Christian womanhood, the contemplative and the active, the devotional and the energetic, the women of studious and prayerful Christian influence, and the women of stirring, busy Christian life, each class equally, in quietness or in activity, loving and being loved by Jesus. And we wish by this name also to indicate the family character of the Institution, and the endearing sisterly relation which all its inmates should sustain towards each other. Let Martha and Mary, those two favored sisters of Bethany, be the types for all our pupils as henceforward they succeed each other in the history of this Institution. And may Jesus evermore visit this Home and Family, and hallow it by His constant presence and by His perpetual benedictions!"

From the same Address we extract another passage, explanatory of the more developed system and work of the Institution.

"In giving a collegiate name to this Institution, as warranted by the terms of our charter, we have endeavored to adapt its character fully to its name, and have accordingly advanced and enlarged its entire educational system. The new curriculum embraces a thorough collegiate course, as well as an academical or preparatory department and a primary department. The collegiate course is of three years, with special adaptation to the needs of our girls and young women, and to their most complete intellectual and moral development.

The opportunities in this Institution are very great. With a building certainly one of the finest, if not the very finest, in the whole country, for its purposes—with an effective corps of excel-

lent and experienced teachers—with every advantage for the physical health and comfort of the pupils and boarders, and with every proper provision for their moral oversight, and for their religious nurture, it deserves to be loyally sustained and patronized, not only by the members of the church in this Diocese, but by all the people of our State. As the only Institution of the sort under Protestant control in the State, it ought to be regarded by the Protestants of the State, of whatsoever denomination of Christians, as their especial pride, and they ought, by their liberal co-operation with us in their patronage, to make it in every respect what it ought to be."

This Institution contains a Primary, a Preparatory and a Collegiate Department, enabling it to *begin and complete* the education of girls in the substantial as well as ornamental branches. We beg to call attention to

1. Its full corps of able and experienced teachers.

2. Its elegant new building, furnace-heated, thoroughly ventilated, with hot and cold water on every story, bath-rooms, and every convenience.

3. Its ample Gymnasium and extensive grounds of twenty acres.

4. Its special facilities in Music and Art.

5. The truly mother-care and oversight bestowed on every pupil.

6. The very full and admirably arranged curriculum of studies.

7. The peculiar advantages offered by our extensive and well chosen preparatory course, and elective scientific course for those who do not desire to go through the entire curriculum of classics and mathematics.

8. The remarkable healthfulness of the institution—no case of serious illness having originated in it since it was opened seven years ago, and many young ladies, formerly in feeble health, having become healthy and strong while resident here.

9. The exceeding smallness of the expense for all the advantages here furnished.

Sessions and Expenses.

Advent Session Begins September 23; Epiphany Session Begins January 2; Easter Session Begins About the Last of March and Ends About the Middle of June. Each Session Lasts about Thirteen Weeks.

The charges in this school (for which see page 8) are to be paid in three installments, one at the beginning of each of the three sessions into which the scholastic year is divided—about the middle of September, January and March. Besides the above, every boarding pupil is required to have on deposit with the Bursar, at the beginning of each session, ten dollars, (for items of clothing, breakages, stationery, books, and other personal expenses,) which will be accounted for at the end of each session.

The object sought for in the arrangement of the schedule of prices is dispensing (in the case of boarding pupils) with the extras which have proved the source of so much embarrassment and vexation in the settlement of accounts.

The charges are, to the best of our knowledge, very much lower than those of any other institution in the country offering like advantages.

New boarding, or day pupils, will be received at any time, and charged for the remainder of the session. But no deduction will ordinarily be made for any absence of *less than four weeks* at the beginning or close of the session, nor during the session, except when on account of protracted illness.

REQUISITES.

Each pupil must be provided with an umbrella, thick-soled shoes or overshoes, changes of table napkins, towels, sheets and pillow-cases, *all distinctly marked;* a dictionary, modern atlas, prayer-book and Bible, with any works at hand helpful to the study of the Bible. Each pupil is required to make her own bed, and to keep her room and its furniture clean and in order.

The entire cost to boarding pupils per school year:

PRIMARY DEPARTMENT.

1. Room rent, board, lights, fuel, home care, ordinary tuitions, and laundry service..... $200 00
2. Room rent, board, lights, fuel, home care, ordinary tuitions, laundry service *and Instrumental Music*, (1 lesson per week, including use of instrument)..... $225 00
3. Room rent, board, lights, fuel, home care, ordinary tuitions, laundry service *and Instrumental Music* (2 lessons per week, including use of instrument)..... $250 00

To meet the peculiar needs of some families in this country, especially those connected with the army, a few little boys, under 8 years of age, are admitted, with their sisters, into the institution. The charges for the little boys in this department are $25 per year more than for the little girls.

PREPARATORY AND COLLEGIATE DEPARTMENTS.

The increased charges in these departments are due to the fact that the more advanced studies pursued in them require more time in teaching, and higher proportionate salaries for competent teachers.

The lectures will be introduced as opportunity allows, and may be varied from time to time as circumstances dictate.

Studies printed in Italics are *elective.* In certain cases, one of these may be accepted in lieu of one of the studies in the regular course; but no student can receive the Diploma of the College without a competent acquaintance with at least one language laid down in the Curriculum.

A Scientific Course, for those desiring it, may be formed by omitting the Languages and taking the elective studies instead. *Resident Graduates* will also have the opportunity to complete a more extended course in Science, Music or Art.

GENERAL INFORMATION.

The College of the Sisters of Bethany is an Institution of the Protestant Episcopal Church, and thoroughly loyal to her Primitive Faith and Apostolic usages—heartily Protestant and truly Catholic—but the daughters of all, without reference to religion, are admitted equally to the entire advantages of the Institution.

Pupils residing in the House, attend Divine Service on the Lord's Day, with the family, unless parents or guardians specially designate otherwise as to morning service.

Pupils from a distance are not expected to go home at the end of the Second Session, nor during Term time, except in very special cases.

Pupils not returning promptly at beginning of Session, will forfeit their rooms (except for a limited time by payment of $20 in advance, to be deducted from bills for Session following.) Pupils leaving at the end of a Session, before Examinations, or at any time without having been properly excused, will lose their standing in the Institution.

Day Pupils will be expected to observe the same rules as Boarding Pupils, in regard to *study hours*, and *outside engagements and amusements during Session time.*

WORDS TO PARENTS.

Parents are respectfully requested :

To provide, as far as possible, the things needful for their daughters *before their coming to School*, especial reference being had to our *changeful Winters and Springs.*

To avoid adorning them with needless finery in dress and jewelry. Girls at school should be plainly, neatly, and modestly attired.

To avoid sending boxes of "good things," the usual precursers of headaches, heartburns, sour tempers, and bad lessons. This mistaken kindness is quite uncalled for in this Institution, the table always being supplied with everything necessary for the health and comfort of pupils.

To avoid asking for their children to be excused to go home during term time, except in great emergencies.

Finally, parents will allow us respectfully to suggest, the vital importance of the *regular*, *constant*, and CONTINUED attendance of pupils at their work. Choose, carefully, we would say, your school at first, and then adhere to it, keeping your daughters in their places, if possible, every Session — every day — *every hour.* They will be immensely the gainers in *regular habits and thorough scholarship.*

HONORS, REWARDS, ETC.

1. *College Diploma.*—All students completing the Regular Course of Study prescribed, and passing their examinations therein, will receive the College Diploma, conferring upon them the *First Degree in Arts.*

2. *Certificates.*—Pupils taking a shorter course of study, will, if they desire, receive a Certificate of their standing and proficiency in scholarship at time of leaving the Institution.

3. *Badges of Honor.*—Pupils maintaining perfect deportment for one Session, will receive the *Badge of Honor*, entitling them, so long as they hold it, to special confidence and privileges. The Badge is worn on all public occasions. Any Pupil in the Preparatory or Collegiate Department may, by good conduct, become a candidate for this honor.

4. The "*Bishop Vail Medal.*"—The Rev. John Bakewell, Rector of Grace Church, Topeka, has permanently instituted a gold medal, to be designated as above, which "shall, at each Annual Commencement, be bestowed upon that pupil in the Collegiate Department whose record of scholarship and deportment stands highest for the year; to be awarded by a vote of the Faculty."

The Avonian Society has been carried forward by the pupils interested with great zeal and success. All pupils of diligence and promise have access to its advantages, upon election to membership.

The well selected LIBRARY is open to all the pupils.

Special attention is bestowed upon the Ornamental Departments, without allowing them to encroach upon the substantial studies of the Course. Thoroughly educated and capable Instructors and Assistants will be maintained in every Department.

It is designed to make arrangements for Special Lectures, on different subjects, by gentlemen of ability, to be delivered during the Course.

APPENDIX.

The following Catalogue of Officers and Instructors in this Institution, up to the close of the School year in June, 1873, and also the preliminary note have been furnished by Rev. J. N. Lee, A. M. :
